

Registro semana 4 BACK- END:

Nome: Arthur Saraiva de França 3B.

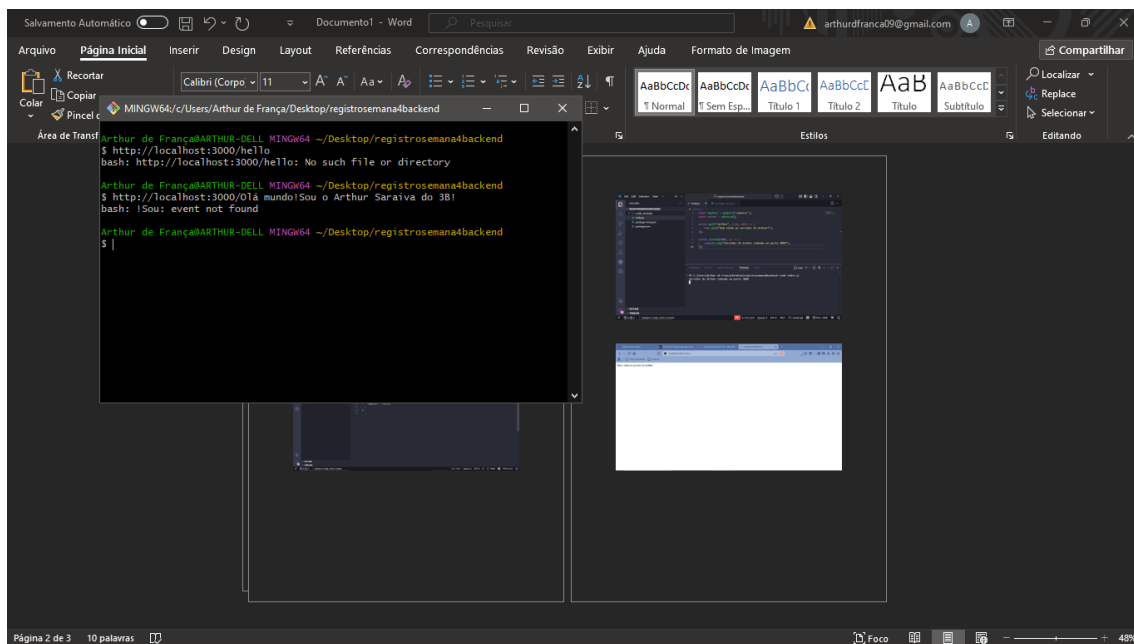

The screenshot shows the Visual Studio Code interface with a project named 'registrosemana4backend'. The Explorer sidebar on the left shows the file structure with 'node_modules', 'index.js', 'package-lock.json', and 'package.json'. The main editor area displays the 'index.js' file with the following code:

```
1 const express = require('express');
2 const server = express();
3
4 server.get("/arthur", (req, res) => {
5   res.send("Bem vindo ao servidor do Arthur!");
6 });
7
8 server.listen(3000, () => {
9   console.log("Servidor do Arthur rodando na porta 3000");
10});
```

The bottom panel shows the TERMINAL with the command 'node index.js' executed, resulting in the output: 'Servidor do Arthur rodando na porta 3000'. The status bar at the bottom indicates 'Ln 10, Col 4', 'Spaces: 4', 'UTF-8', 'CRLF', 'JavaScript', and 'Port: 5500'.

Bem vindo ao servidor do Arthur!
